

Passaic County Memorial Butterfly Release

To commemorate International Overdose Awareness Day. We welcome you to join us in honoring those we have lost over the years to substance use related causes. At this event, we will be releasing live butterflies as we recite the names of loved ones we have lost. If you would like your loved one's name read during the butterfly release, please send an email to passaicrecovery@mcpiik.org with your loved one's name. It can be a nickname, just a first name or whichever name you are comfortable being recited. If you submitted names in the previous year, and did not request it to be removed, the names will be read annually in continued remembrance.
